EuroCC - National Competence Center for HPC

Thursday, 15 September 2022 12:20 (30)

The Polish National Competence Center for HPC built within the EuroCC project will be described during the talk. EuroCC is a pan-European project funded by the EuroHPC JU, a joint initiative between the EU, European countries and private partners to develop a World Class Supercomputing Ecosystem in Europe. Polish NCC is formed on the base of PLGrid Consortium members, which include all six Polish HPC centres: Cyfronet, Cyfronet, CI TASK, ICM UW, NCBJ, PSNC, WCNS. A short overview of the project and the current status will be provided, as well as a list of currently available services and competencies provided by the NCC partners.
