

# Rubin-LSST Polska 2023

## Wednesday 25 October 2023

### **Block 6 (14:15-15:30)**

time	[id] title	presenter
14:15	[25] Boudewijn Roukema “ Does relativistic cosmology software handle emergent volume evolution?”	
14:30	[26] Mikołaj Korzyński “Inhomogeneous Hubble expansion, position drifts and redshift drift”	
14:45	[27] Suhani Gupta “Imprint of modified gravity on large-scale structure formation in the universe”	
15:00	[28] Anna Durkalec “Halo asymmetry and galaxy clustering”	
15:15	[29] Feven Markos Hunde “Tracing the cosmic web’s signature on dark matter subhaloes”
