Rubin-LSST Polska 2023

Tuesday 24 October 2023

Block 3 (16:00-17:25)

time	[id] title	presenter
16:05	[18] Wojciech Hellwing "Constraining Dm models with LSST with dark-subhalo detection in strong lensing	
16:25	[52] Darko Donevski "The co-evolution of the interstellar medium in quiescent galaxies and their large-scale environments: a synergy between the Euclid, JWST and LSST"	
16:45	[20] Maciej Bilicki "Photometrically-selected foreground galaxies for cosmology, now and in LSST era"	
17:05	[21] Knut Olsen (online) "Supporting Computational Science with Rubin LSST — Next Steps"
