

Krzysztof Nawrocki (NCBJ), Status of in-kind programme, astroinformatics and synergies

Wednesday, 23 October 2024 14:00 (15)

In the talk we would like to describe the current status of the Polish IDAC few months before first light. The talk will focus on the solution that we are implementing. We will give a general description of main science cases and how they affects the architecture of our IDAC.

Session Classification : Status of in-kind program, astroinformatics and synergies
