

NOMATEN Innovation Days

SAVE THE DATE May 24-25 2023

Materials Research for Industry

National Centre for Nuclear Research, Sołtana 7 St.,
Otwock (Warsaw Metropolitan Area), Poland

NOMATEN Innovation Days is an industry-oriented event focused on companies' expectations, needs and experiences in terms of R&D projects and scientific services. NOMATEN Centre of Excellence is an international research organization dealing with different aspects innovative materials for the future industry. We are based at Poland's National Centre of Nuclear Research (NCBJ) and engaged in an extensive partnership with VTT Technical Research Centre of Finland and the French Alternative Energies and Atomic Energy Commission (CEA).

NOMATEN's goal is to learn about companies' needs and demand for research services. Representatives of such industries sectors as nuclear, conventional energy, renewals, metals, chemical, hydrogen, gas & oil, mining, cleantech, waste management, aeronautics, automotive, rail and related are welcome to attend the event and learn about the collaboration opportunities.

Preliminary event content:

- Presentation of the R&D collaboration potential related to research capacities of NOMATEN and its' partners in terms of materials research
- Case studies on nuclear energy projects (1st day)
- Case studies on non-nuclear industries (*general engineering* - 1st and 2nd day)
- Nuclear techniques for engineering
- Presentations and workshops on successful grant applications, setting up R&D partnerships etc. - feat. representatives of the EU's and Polish funding institutions
- Opportunities to meet NOMATEN, NCBJ, CEA and VTT team (*business mixer*)
- Site visits to NOMATEN laboratories (SEM and TEM microscope labs, Xray diffractometer, corrosion laboratory, arc melting), NCBJ industrial radiography divisions, cyclotron construction site
- Special workshops on efficient energy management by NCBJ's Interdisciplinary Division for Energy Analyses (IDEA)
