

# International Conference on Free Electrons Laser Applications in Infrared and THz Studies of New States of Matter

## Wednesday 06 July 2022

Wed 06/07 Morning 2/ change at 11 o'clock keynote1 J.M Klopf / Abstract ID - Róza (11:00-12:25)

time	[id] title	presenter
11:00	[34] Auger scattering in massless Dirac and Kane materials	Dr WINNERL, Stephan
11:45	[39] Pressure tuning of THz cyclotron resonance in HgCdTe alloys	SZOŁA, Maria
12:05	[7] Temperature Dependence of Responsivity in Sub-THz band of AlGaIn/GaN and Graphene Transistors	Dr RUMYANTSEV, Sergey
