

International Conference on Free Electrons Laser Applications in Infrared and THz Studies of New States of Matter

Thursday 07 July 2022

Thu 07/07 Morning 2 / Abstract ID - Róża (11:00-12:30)

| time | [id] title | presenter |
|-------|---|---------------------------|
| 11:00 | [41] Graphene plasmonics: THz nonlinearities beyond thermal effects | Prof. MITTENDORFF, Martin |
| 11:45 | [60] Amplification of THz Radiation by Strong Interaction of Drifting Electrons with Plasmons in Graphene and GaN | Prof. KNAP, Wojciech |
