

International Conference on Free Electrons Laser Applications in Infrared and THz Studies of New States of Matter

Friday 08 July 2022

Fri 08/07 Morning 1 / Abstract ID - Róza (09:20-10:20)

time	[id] title	presenter
09:20	[30] Measurements of Electromagnetic Properties of Low-loss Dielectrics in the mm-Wave and sub-THz Bands	Dr KOPYT, Pawel
09:40	[56] Ultra-wideband graphene-based THz absorbers	LIOUBTCHENKO, Dmitri
10:00	[37] Detecting trace amount of contamination or additives in commercial-grade gasolines by means of THz-TDS time-of-flight spectroscopy	STELMASZCZYK, K.
