Dark Matter and Dark Energy in Astronomical Measurements (16:45-18:00)

-Conveners: Bożena Czerny; Agnieszka Pollo

time	[id] title	presenter
16:45	[39] Missing black holes and the dark matter puzzle	WYRZYKOWSKI, Ł.
17:00	[40] A signature of sterile neutrino dark matter in the Local Universe	HELLWING, W.
17:15	[41] Toward precise and accurate determination of the Hubble constant based on supernovae Ia, Cefeids and eclipsing binaries	PIETRZYŃSKI, G.
17:30	[42] Constraining cosmological parameters using reverberation-measured quasars	MARTINEZ ALDAMA, M.L.
17:45	[43] Dark matter haloes and their galaxies at $z \sim 3$	DURKALEC, A.
